

MIGUEL RAAD

JUNIOR FULL STACK DEVELOPER

EDUCATION

Coderhouse – E-learning platform

March 2022 – January 2023

Responsive web design (HTML, CSS, SCSS, Bootstrap). JavaScript, ReactJs, Express, MongoDB, Muler.

Domingo Faustino Sarmiento 92 de 01

March 2017 – December 2021

High school with a focus on computer science.
Web development and SQL databases.

WORK EXPERIENCE

DIGITALHOUSE - UDESA, Adjunt Professor of Programming (Back-end).

March 2023 – Present

My role involves resolving doubts and code erros during class practices, along with explanatory talks using real-life metaphors for easy understanding by students. The purpose of this subject is to expand the students panorama regarding web programming, delving into the JavaScript language, building business logic through a back-end, user authentication, design, creation and management of a database (MySQL).
